

Brand new 6WG1 engine - PN1100723650

Engine Model	6WG1 - TCR (Water-cooled, 4 cycle, in-line 6 cylinder, 24-valve OHC direct injection diesel)
Cylinder arrangement, number of cylinders, inner diameter and stroke	L6 - 147 x 154mm (5.79 x 6.06 in)
Total piston Displacement	15.681L (956.9 in)
Compression Ratio	16.5
Compression pressure	2840 kPa or more (kgf/cm² or more / 412 psi or more) / 200 rpm
Air Intake System	Turbocharged
Fuel System	Electronic type, common rail (Fuel rail), 6UHD, DLL-P
Coolant capacity (including radiator)	44.4L
Electrical System	Battery (V) — 24 Volts Starter (V-kW) — 24-4.0 Alternator (Amp) - 60A
